SPRINGDALE SPLITTERS.

A Writer Who Hears to the Line, Regardless Where the Chip Falls.

Mr. Jenks of Danville, Ill., is visiting Mrs. Lida McDonald.

Miss Lettie Weaver continues very ill at her home near here.

Mr. R. F. Cook enjoyed the benefit of a visit to Glen Springs the past week.

Mr. Mat Thompson is located again for the C. and O. at Glen, Greenway and Mrs. John.

Mr. and Mrs. Lawson Hosh and Mrs. John Hosh were calling on friends here recently.

Mr. George Hill and wife, formerly residents of Lewis county, but for many years citizens of Western Illinois, are visiting friends and relatives here.

Mr. C. C. Deyman and son, F. P. Deyman, came home Sunday after spending the week enjoying the O. A. R. Encampment and visiting friends in Cincinnati and Corvair.

A very large crowd assembled at Cottageville Sunday afternoon to witness the parade of the young people who made the good confession during the recent protracted meeting there.

Extract from Corporal J. S. Deyman's letter to his parents:

CAMP CORVIR, LEICESTER, KY., Sept. 10, 1894.

I did not get to read all the papers you sent as a storm came up just as I unfolded and distributed them. When a storm comes it creates so much excitement to take in the headlines and get the news that one is not able to take care of newspapers in a household of seven out of our twelve columns are not three on each side.

Full Johnson to go school and take special pains to learn to read and write, as so many of the young men here have not received their education was neglected, and now they feel the need of it.

We do not get so much as we did two hours a day and three parades in about all. I have been in one of the LEICESTER parades we went to a baseball. I wish we had some of the boys.

A good many of the boys had learned to read. Now they are short of money to buy it and they complain a good deal about their "hard luck."

A few weeks ago one of the boys—son of Company D—died of a fever. He was brought back, was given a try in the hospital, a doctor came and he died. It was a pity. It certainly will be a lesson to other boys here.

The next time any of you are in Mayville or in the Lexington office see the picture of a company.

As ever, with love to all, J. S. DEYMAN.

The St. Francis de Sales Academy will open Thursday.

More than twenty will go to free samples of DeWitt's Witch Hazel Salve have been distributed by the manufacturers. What better proof of their confidence in it is there do you want? It cures piles, burns, scalds, sores, in the shortest space of time. Henry W. Hays, Adjutant, P. O. Box.

BILIOUSNESS

homes many a body and burdens many a mind. You can't enjoy the food you like because you are bilious. You take all sorts of precautions, and yet the bilious attack leaps on you like a tiger from ambush. You know the feeling! The blood seething on fire with a dull heat; the burning pain in the bowels; the horrid nausea to open and shut; the horrible nausea. You know the irritability which precedes and the languor that follows the attack. It's miserable, isn't it? Why not cure the trouble? There's a pill that will cure biliousness. Dr. J. C. AYER'S PILLS are an acknowledged specific for this derangement.

AYER'S PILLS

A. Swanger, Toxanah, Tex., writes: "For fifteen years I have used Ayer's Pills, and find them very effective in bilious complaints. I have yet to see the case where they have failed to cure."

If You are Bilious DO NOT FAIL TO TRY

SHIPS FOR RUSSIA.

Cramps to Build a Battleship and Cruiser for the Czar.

Will Be Far Superior in Every Way to Anything Yet Designed for the American Navy.

Charles Cramp, the head of Cramp's shipyard in Philadelphia, is in Washington to consult the naval authorities regarding the bids which are to be opened for the three 12-knot battleships. Mr. Cramp has recently returned from Russia, where he secured contracts to build a battleship and a cruiser for that government, which are to be far superior to anything yet designed for the American navy. Speaking of these ships he said: "We shall begin to lay their keels some time next week. The battleship will be of 12,700 tons displacement, and must maintain a speed of 18 knots for 12 consecutive hours, with all coal, ammunition and stores aboard, and these stores, coal and ammunition are 50 per cent. greater than those carried on any ships outside of Russia. This speed, under these extraordinary conditions, must be maintained for 12 consecutive hours, and under natural draught must maintain 22 knots for 12 consecutive hours, and 17½ tons of coal and 100 tons of stores of all kinds than has hitherto been put into any warship."

A continuous test for 15 hours is something which no other warship, except the cruiser in Europe generally being to rate vessels by the speed they attain in a short or quick measured mile.

Mr. Cramp, while at the navy department, told officials that he considered it a great mistake to build slow ships when the other nations were building them faster and faster. He intends to submit a bid for the battleships designed by the department to duplicate the Albatross, but is more than likely that he will offer practically to duplicate the Russian battleship for the United States.

TO BE MADE PERMANENT.

Acting Commissioners in Different Branches of the Service Will in Many Cases Be Retained.

During the war about 375 line officers, 50 medical officers, 39 pay officers and 175 engineer officers have been appointed to acting commissions. It is found that the navy will require the services of some of these officers in the permanent establishment. This is especially so in the engineer corps, and Engineer in Chief Melville has recommended that a number of the 62 passed assistant engineers and 97 assistant engineers be retained in the navy.

All of the appointees to this corps are either graduates of technical schools or have had practical experience in engineering work. They have all proved themselves abundantly qualified for their duties and can be retained in the service by act of congress without recourse to further examination. It has been found in some quarters that these officers, many of whom are desirous of remaining in the service, would interfere with the departmental plans for amalgamating the line and engineer corps.

NEW PENSIONS.

Number of Claims May Reach 50,000—May Cost the Government \$12,000,000 Per Annum.

When Commissioner of Pensions Evans was seen in regard to claims for pensions growing out of the present war it was learned that only 144 applications have been filed. It is estimated that there will be 50,000 applications filed as the outgrowth of wounds inflicted and disease contracted during the war. At an average of \$200 per month, the estimated cost of pensions will be \$12,000,000 per annum, but the commissioner says it is difficult to make anything like an accurate estimate. Claims now on file represent all parts of the union, and the claims are not filed by states it is impossible to tell which sections of the country are represented. Forty-eight per cent. of the claims now on file are for invalid pensions and 52 per cent. are made by widows and minors, who lost their husbands and fathers in the fight for Cuban freedom.

THE ALMIRANTE OQUEENDO.

The Wreck of the Spanish Ship at Santiago Proves She Was Poorly Constructed.

As a matter of fact the Almirante Oquendo and the Infanta Maria Teresa seem to have been poorly constructed. If they have a belt of armorized steel 12 inches thick, as naval registers declare, it is not easily damaged; but there are other holes, some made by two-inch guns over their sides. Probably the officers of government who were overseers of the construction of these ships did not fancy giving Spain good cruisers so much as they fancied putting money in their purses.
